“ For those of us that were lucky to know Andrea and work with her had the blessing of having someone that was supportive. Although I personally knew Andrea outside the office I wanted to share a memory with everyone that comes from the work space. I remember when I was just getting started at US Mortgage. Andrea was such a cheerleader. Always going out of her way to tell me how great the company was and how everyone was like family. She always had an open door and would always listen. She wanted to always help and push me to get it done. She would always get involved and help get the task to the finish line. This was something Andrea for everyone that came to her for support or even just an ear to vent. Andrea would always help out. Knowing I came from zero background with mortgages, it was nice to know that Andrea was there. Always taking the time to explain a product or a process. She was one of the few people who pushed me to get my NMLS license. I remember her always telling me “you can do it”, “your going to do so well on the test”. I will always remember this. Andrea was so supportive. I got to experience it first hand and I also got to see her treat so many others like this. I am so thankful for my time with Andrea in and out of the office.
