

## Donald McLean

September 20, 2012

July 30, 1959 – September 20, 2012

Donald passed suddenly while relaxing before heading off to work. He had enjoyed a beautiful day, running some errands, slinking along the tree-lined roads of eastern Suffolk County, stretching out the cars muscles, enjoying the feeling of the wind in his face, having driven with the top down on his favorite toy, a convertible, black, Corvette. Donald loved spending his working years driving a big-rig for Crestwood Metal Recyclers in Bohemia, N.Y., where he had many friends and coworkers. Donald also had a successful landscaping business prior to his work with Crestwood. He enjoyed spending time with his many nieces and nephews, always smiling as he told of his trips; of the jet-ski escapades and mishaps, his driving stories, and tales of his mystical snow mobile exploits. Donald was predeceased by his parents, Marilyn (nee Taft) and Donald (his namesake), and he is survived by his sisters Donna (Walsh), Deborah McLean, Denise McLean and Lisa (Spivak) along with numerous nieces, nephews and a grand nephew.
