KB

“ To my Uncle Robert. One of the nicest human beings that I've ever known. I may have not seen him as often as I would like, but I knew he was always there for me and we had a deep connection no matter how far we were from each other. He always motivated me to try my best. One of his sayings he would tell me that always stuck in my head, "Keep doing what you're doing because you're doing it right." I keep that quote in the back of my mind when times get rough. I'll miss him, but I know he is up above looking out for me and the family.
