“ I have so many treasured memories of our dear sister Yvonne. Summer of '79 truly was a blast showing the Sights of London to Yvonne and her daughter Adrienne. Such fun. Such laughter. Beautiful memories. Yvonne loved gardening- I am pretty sure the visit to Kew Gardens inspired her. Years later, Yvonne came to visit us all and it was so good to hear her call “Miss Em” once more. We shall miss her beautiful smile. She was ever so young at heart. Thank you Yvonne, for the good and happy times we all shared together during your stay in the UK. The fond memories will always be dear in our hearts.

“ *I will always remember Yvonne’s enthusiasm and love for nature and life. She had so much energy. I remember her visiting and getting out garden into shape within a couple of days! She maintained her youthful curiosity and love of life for as long as she could. She will remain in our hearts always as a dear sister and wonderful person.*
