“ I could go on forever with memories with Zach but one of the funniest is the time we went to burger king to get shakes and it was a snow storm, when we got back he was walking down the side walk and slipped and spun around about three times it's ended up with us both falling down covered in milkshakes. we laughed for hours about it. Zach is the most kind hearted person i've ever been blessed to meet. No matter what or where he has been there for me during tough times. I'm sending so much love to his family during these hard times. Zach is so loved. 💕

“ Such a sweet boy with a beautiful smile. The world is definitely a little bit darker without his light. So so very sorry.

“ *My fondest memories of Zach were of course Hilltop Little League but the most memorable is when he would come to my home and sit in my son Masons room for hours, days upon days making music. His grandma Linda would call and say "is my Zach there again? If he is to much just send him home" my response was always he is always welcome here, I love having him here and listening to the music that they boys are creating. And that smile, always had that beautiful smile on his face.*
